

Leading Edge Certification
For the Professional Learning Leader
A Few Course Reflections

This course was the "just in time" training I needed to plan more efficient and effective professional development in my district. The adult learning strategies, goal setting activities and lesson development ideas were invaluable. I look forward to the development and implementation of a new PD learning center design.
~ Technology Support Specialist

If you are looking for an opportunity to further your own education and experience where learning and education is heading this module is for you. I plan to offer this module to my directors and instructional coaches.
~ Assistant Superintendent of Instruction

This course was the perfect blend of individual, online and collaborative work. It was well researched and the projects were applicable to my professional goals and work. I appreciated the coaching as well as the colleagues I met. This is a must for educational leaders as this models how are students should be learning in our ever changing world.
~ Middle School Principal

The Leading Edge Certification for the Professional Learning Leader was a valuable experience. It is a robust course with meaningful content and projects to reinforce the learning process. I would recommend this course to other educational professionals and feel it would be a great team-building event for groups.
~ Project Specialist – OTAN

The LEC PLL program was exactly what I needed at this point in my career. I appreciated the opportunity to learn the latest in pedagogy for delivering professional development to staff. Also, the convenience of online learning made this easy to accomplish during my summer vacation.
~ Technology Teacher

Before taking this course, I was not at all literate about the idea of blended learning. I am grateful to my boss for giving me the opportunity to participate in this training. Now I have the knowledge and skills needed to make my own PD sessions more interactive, engaging and high tech.
~ Bilingual Resource Teacher

The team was very welcoming at the face-to-face and operated like a well-oiled machine. They did a good job of setting the tone. The feedback was timely and helpful. The instruction was great. They also did a good job of anticipating the hurdles in the course and sending out a positive message to get everyone up and moving before the deadlines.
